

Please put this sticker inside the lid of your brown bin

Your brown bin

Please try not to compact the material in your brown bin as this can result in your bin being half emptied on collection day.

Plastic bags should never be put into brown bins as they can't be recycled and contaminate the food and garden waste. Food should be placed in the bin loose or put in compostable bags when recycled in brown bins.

Tea bags and
coffee grounds

Egg shells

Cheese

Fruit, vegetables
and peelings

Meat, fish and bones

Plate left overs

Garden Waste can be placed in your brown bin, only if you have a permit.

Grass and
hedge cuttings

Flowers

Small branches
and weeds

Please do not place plastic plant pots and trays in your brown bin.
They cause contamination and should be placed in the grey bin.
No liquids or invasive species should be placed in your brown bin, e.g.
Himalayan balsam and Japanese knotweed.

Visit www.westlothian.gov.uk/brownbins or
scan the QR code for more information and to
purchase a garden waste permit.
